

The Best Start to Life

It's important for your child to have a care team who knows them, builds trust and can help them navigate the challenges of growing up healthy. Our pediatricians provide:

- Preventive care
- Same-day sick visits
- Screenings
- Immunizations
- Physicals
- Behavioral health care
- Care coordination: lab and imaging services, prescriptions, nutrition counseling and more

Specialty Care

Your child's Hudson Headwaters pediatrician can coordinate referrals to specialists in our network and beyond, including routine women's health care in the teen years.

Find a Pediatrician

Pediatric & Adolescent Health

Providing the best health care, and access to that care, for children and teens in our communities

Comprehensive Care for Kids and Teens

Hudson Headwaters Health Network has been providing care to children and teens in the North Country and Glens Falls for over four decades. We pride ourselves on staying with your family from your child's birth, through their early shots, school, camp and sports physicals—all the way through seeing them off to college.

Get Started at Birth

We have experienced pediatricians throughout the North Country, so you have plenty of options when selecting your child's health care provider. To ensure your family is supported from the beginning, we strongly recommend that expectant parents choose a pediatrician before their baby is born.

Coordinating Your Child's Care

Kids' scrapes and sicknesses can happen at any time. That's why we do our best to be available when the youngest members of your family need us.

Same-Day Visits

If your child or teen is sick or has a minor injury, call your local health center during regular business hours. A member of the care team may be able to see your child the same day.

If your child experiences a life-threatening emergency, go to the nearest hospital or call 911.

After-Hours

If your child is sick or has a non-life-threatening injury after hours or away from home, you can:

- Call your health center to reach an on-call provider
- Visit our urgent care centers in Warrensburg or Glens Falls

Secure Online Health Portal

As a parent or legal guardian, you can manage your child or teen's personal health information on our secure online health portal. Message your child's care team, check test results and much more from the convenience of your computer or mobile device.

Prescription Renewals

Call your child's pharmacy to request non-urgent medication refills. If you need provider approval, request it through the portal or by calling your health center. Remember: It takes up to three business days to process a renewal request, so ask for a renewal before your child needs it.

Payment

We participate with most major insurers, including Medicare and Medicaid. Please bring your insurance card (or your child's, if they are covered by a different plan) to every visit. If we do not participate with the insurance plan, services are not covered by the plan or a deductible or copay is required, you are responsible for payment in full at the time of the visit. We can help you set up a budget plan to cover these costs. If you have questions, please call our Patient Support team at 518-761-0300 ext. 31400 between 8:00 a.m. and 4:30 p.m.

Need to Change an Appointment?
If you need to cancel or reschedule your child's appointment, please call at least 24 hours in advance or you may be charged a \$25 fee.

Financial Assistance

We care for everyone in our communities, regardless of financial or insurance status. Our Sliding Fee program sets costs for care and prescriptions based on household income and size. If your family is eligible, you may also receive discounts through our pharmacy program. For more information or assistance, please call 518-824-8640.
