

# Want an Earlier Appointment? We'll Text You!

**We'll get you the care you need faster.**

How it works:

- 1 If you have an appointment scheduled, we'll text you if an earlier appointment opens up.
- 2 The text will include details about your current appointment and the open one.
- 3 There will be a "magic word" in the text message.
- 4 The first patient to respond with the "magic word" gets the earlier appointment.

**Make sure we have your cell  
phone number on file.**
